SUMMARY

Computer Engineering student graduating in July 2027, with Python, SQL and software development experience. Built web and embedded projects, including automated tests and an analytics dashboard. Seeking AI engineering internships that build on programming skills, AI/ML foundations and an interest in practical applications.

SKILLS

Programming: Python, C/C++, SQL, JavaScript, HTML, CSS

Data and development: pandas, NumPy, Matplotlib, Jupyter Notebook, Node.js, PostgreSQL, Git, GitHub, Playwright, AWS

AI foundations and tools: AI/ML foundation certification, prompt engineering, ChatGPT, GitHub Copilot

Delivery: Requirements gathering, technical documentation, Agile, stakeholder communication

EDUCATION

B.Tech, Computer Engineering | Maharaja Surajmal Institute of Technology
Aug 2024 - Jul 2027 (expected) | CGPA: 8.73/10

Diploma, Computer Engineering | Delhi Skill and Entrepreneurship University
Dec 2021 - Jun 2024 | CGPA: 8.13/10

Class X | C.R.P.F. Public School
2021 | 82.83%

PROJECTS

GymSetu | Node.js, PostgreSQL, Playwright

- Built a Node.js/PostgreSQL SaaS marketplace connecting users with local gyms, with membership tiers and a real-time analytics dashboard.
- Defined requirements and user stories for a proposed AI recommendation feature; implemented Playwright tests for checkout and onboarding.

EYSONIC | Embedded C, Ultrasonic Sensors

- Prototyped an embedded C wearable using ultrasonic sensors and audio/vibration alerts to detect obstacles within 1-2 metres; demonstrated at a college showcase.

EXPERIENCE

Data Analyst Intern | StaplerLabs | Jun 2026 - Aug 2026

Web Developer Intern | KDSESJS (NGO) | Jun 2025 - Jul 2025

- Gathered stakeholder requirements and developed an NGO website supporting health and education programmes.

IT Division Intern | Airports Authority of India | Sep 2023

- Analysed IT infrastructure gaps and mapped workflows for stakeholder review.
- Maintained operational reports and asset/inventory trackers across 3+ divisions.

Security Engineer Intern | CERT-In | Jun 2023 - Jul 2023

- Coordinated incident-response workflows with public and private sector CERTs, gathering requirements and managing operational data.
- Authored 10+ SOPs for cybersecurity audits, translating technical processes into structured reference documentation.

CERTIFICATIONS AND ACHIEVEMENTS

Python Programming - Google for Education; AI and Machine Learning Foundation - RF Skilling Academy.

AIR 6, LEET Exam | Topper Scholarship Holder, DSEU - AIR 295
