SUMMARY

Computer Engineering student graduating in 2027 with internship experience in data analysis, operational reporting and requirements gathering. Skilled in SQL, Python, Excel and Power BI, with experience documenting workflows and translating stakeholder needs into technology solutions.

SKILLS

Data & BI: SQL, Python, Excel, Power BI, Pandas, NumPy, Matplotlib, Jupyter Notebook
Analysis: Data cleaning, data validation, KPI reporting, dashboards, requirements gathering
Business & Tools: Gap analysis, workflow mapping, stakeholder communication, technical documentation, Agile, Waterfall, PostgreSQL, Git, GitHub

EDUCATION

B.Tech, Computer Engineering | Maharaja Surajmal Institute of Technology
Aug 2024 - Jul 2027 (Expected) | CGPA: 8.73/10

Diploma, Computer Engineering | Delhi Skill and Entrepreneurship University
Dec 2021 - Jun 2024 | CGPA: 8.13/10

EXPERIENCE

Data Analyst Intern | StaplerLabs Jun 2026 - Aug 2026

- Cleaned and validated internal datasets using SQL, Python and Excel; checked missing values, duplicates and inconsistent formats before reporting.
- Updated Power BI dashboards and recurring reports to summarize key performance indicators (KPIs) and trends for internal review.
- Documented reporting requirements and data checks; prepared concise findings for team discussions.

Web Developer Intern | KDSESJS Jun 2025 - Jul 2025

Kama Devi Swasthya Evam Shiksha Jagriti Sansthan

- Gathered NGO stakeholder requirements and translated health and education program needs into website structure, content and a user-friendly interface.

IT Division Intern | Airports Authority of India Sep 2023

- Performed IT infrastructure gap analysis, mapped system workflows and documented process inefficiencies for stakeholder review.
- Maintained daily operational reports, asset registers and inventory trackers across 3+ divisions to support accurate management reporting and audits.

Security Engineer Intern | CERT-In Jun 2023 - Jul 2023

Indian Computer Emergency Response Team

- Authored 10+ cybersecurity audit SOPs, documenting technical processes for internal compliance, training and reporting.
- Coordinated incident-response workflows with public and private sector CERTs, gathering cross-functional requirements and maintaining operational data.

PROJECTS

GymSetu | Full-Stack SaaS Marketplace
Node.js, PostgreSQL, Playwright | github.com/gitzboy1/GymSetu

- Defined product requirements for a gym marketplace with membership tiers and a real-time analytics dashboard; developed the Node.js/PostgreSQL application.
- Wrote user stories for an AI recommendation feature and used Playwright to validate onboarding and checkout workflows.

ACHIEVEMENTS & CERTIFICATIONS

Achievements: AIR 6, LEET Exam | DSEU Topper Scholarship Holder; AIR 295
Certifications: Python Programming - Google for Education; Artificial Intelligence and Machine Learning Foundation - RF Skilling Academy
